SUMMARY

Frontend Developer with 10+ years across FinTech, Betting, and Enterprise SaaS. Last 4 years on CreditFlow — a financial analytics platform for US Debt Capital Markets with 150+ institutional clients. Before that: high-traffic sports betting (Favbet), cross-platform apps (React Native, Angular), and enterprise web platforms with REST API integrations. Specialises in TypeScript/React, real-time data (WebSocket), complex forms, legacy migrations, and automated testing (Playwright, Jest, Vitest, GitHub Actions CI). End-to-end feature ownership; regular business demos; SAFe Agile.

EXPERIENCE

Senior Frontend Developer · Finsight — Kyiv

February 2022 – July 2026

- Built real-time data tables with SSR rendering and WebSocket subscriptions for a financial data and analytics platform used by institutional investors and investment banks.
- Engineered key user-facing analytical features for the CreditFlow platform: Bond Screener, League Tables, Portfolio Monitor, New Issue Volume charts, interactive dashboards.
- Drove three platform-wide migrations: JavaScript → TypeScript, Redux Form → Final Form, Redux → React Context.
- Built Playwright E2E tests + Jest/Vitest unit tests integrated into GitHub Actions CI.
- Performed mandatory code reviews within a 10-person squad; owned features from spec to production.
- Presented sprint deliverables to business stakeholders 3+ times per PI; monitored Sentry errors daily.
- Worked in SAFe Agile (2-week sprints, PI planning, backlog refinement, retros).

Frontend Developer · Betinvest — Kyiv

February 2020 – February 2022

- Developed new features and maintained core React applications for a high-traffic sports betting platform (Favbet).
- Implemented state-driven components, custom React Hooks, React Hook Form, design system libraries.

Frontend Developer · Softwarium — Kyiv

April 2019 – February 2020

- Built interactive React applications for childcare and school facility management (Vigilo).
- Used Redux, Formik, React-intl for localization.

Junior Frontend Developer · OldminTeam — Zhytomyr

May 2018 – April 2019

- Cross-platform web and mobile applications with Angular 2+, React.js, React Native.

Junior Frontend Developer · JBS Ukraine — Zhytomyr

May 2016 – May 2018

- Responsive layouts, corporate web platforms, third-party REST API integrations.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libs: React, Next.js, Angular (2+), React Native, Redux, React Context

Forms & Validation: Final Form, React Hook Form, Formik, Redux Form, TanStack Query

Styling & UI: Sass, Styled Components, CSS Modules, UIKit, Material UI, Design Systems, Tailwind CSS

Testing: Playwright, Jest, Vitest

Tools: Git, Figma, Storybook, Sentry monitoring

ACHIEVEMENTS

- Transformed the free functionality of the application into a multi-level subscription, which allowed the company to attract 150+ premium subscribers and increase monthly revenue from subscriptions.
 - Built high-performance tables and complex data-entry forms for reliable real-time market data ingestion.
 - Test suite from scratch: 50+ Playwright E2E + Jest/Vitest unit tests in GitHub Actions CI → continuous regression detection on every PR.
 - Optimized client-side components for the high-traffic Favbet platform under heavy load.
 - Reusable component systems: Designed custom React Hooks and UI component libraries across multiple projects (Betinvest, Softwarium) → reduced duplication and accelerated feature delivery.
-

PROJECTS

CreditFlow: <https://creditflowresearch.com/> — Real-time analytics for US Debt Capital Markets

Finsight: <https://finsight.com/> — Financial intelligence and market data platform

Favbet: <https://favbet.com> — High-scale sports betting platform

Vigilo: <https://vigilo.no> — School and childcare management software

CERTIFICATIONS

Next.js Fundamentals, v4 Course Completed — Issued Sep 2026

Master.dev (Formerly Frontend Masters)

LANGUAGES & EDUCATION

Ukrainian: Native | **English:** Intermediate (B1/B2)

Specialist's Degree in Management of Organizations and Administration

National University of Food Technologies, Kyiv · 2011–2012
